RISPETTARE L'AMBIENTE

L'aria ed il terreno sono beni preziosi ed insostituibili, rispettarli vuol dire anche rispettare noi stessi.

È importante quindi conoscere le normative del luogo per il corretto smaltimento di oli esausti e liquidi refrigeranti usati.

Nel caso in cui non si conoscessero con precisione tali disposizioni, recuperate i liquidi in recipienti adeguati ed a tenuta stagna fino a quando non avrete chiesto chiarimenti al vostro fornitore, il quale saprà senz'altro come aiutarvi.

Evitare il contatto con la pelle ed impedite la fuoriuscita di liquido durante i rabbocchi.

Riparate immediatamente serbatoi o tubi danneggiati; proteggerli adeguatamente nel caso di interventi con saldatrici, mola o altra attrezzatura, che potrebbe danneggiarli.

SCHÜTZEN SIE DIE UMWELT

Die Luft und der Erboden sind wertvolle und unersetzbare Güter, sie zu schützen bedeutet gleichzeitig, uns selbst zu schützen.

Deshalb ist es wichtig, die örtlichen Regelungen für die korrekte Verwertung von gebrauchtem Öl und verbrauchten Kühlmitteln zu kennen.

Sollte man diese Vorschriften nicht genau kennen, so sammeln sie die Flüssigkeiten in geeigneten Behältern mit Dichtigkeit solange, bis Sie Erklärungen bei Ihrem Lieferanten eingeholt haben, der ohne Zweifel weiss, wie er Ihnen helfen kann.

Vermeiden Sie den Hautkontakt und verhindern Sie das Herauslaufen der Flüssigkeit während des Umfüllens. Reparieren Sie auf der Stelle beschädigte Tanks oder Rohrleitungen; schützen Sie sie auf geeignete Art und Weise bei Eingriffen mit Schweißgeräten, Schieben oder anderen Werkzeugen, die sie beschädigen könnten.

RESPETE EL AMBIENTE

El aire y el terreno son bienes preciosos e insustituibles, respetarlos significa respetarnos a nosotros mismos.

Es importante, por lo tanto, conocer las normas del lugar para eliminar correctamente los aceites y líquidos refrigerantes usados. En el caso en que no se conozcan con precisión tales disposiciones, mantenga los líquidos en recipientes adecuados herméticamente cerrados hasta cuando el proveedor, que seguramente sabrá como hacerlo, le indique que hacer con los mismos. Evite el contacto con la piel y trate que no salga el líquido durante el relleno.

Repare inmediatamente los tanques o tubos estropeados, protéjalos adecuadamente en el caso tenga que usar máquinas soldadoras, muelas u otros equipos los cuales podrían dañarlos.

RESPECT THE ENVIRONMENT

The air and the ground are precious and irreplaceable assets: to respect them also means to respect our selves.

Therefore it is important to know the local regulations for correctly disposing of used oils and refrigerating liquids.

In the event of such regulations not being exactly known, put the liquids in suitable, air-tight containers until you have obtained clarification from your supplier, who will certainly know how to help you.

Avoid contact with the skin and prevent the leaking of liquid during filling.

Immediately mend any damaged tanks or tubes; protect them properly when working with welding equipment, cutting wheels, or other equipment that could damage them.

RESPECTER L'ENVIRONNEMENT

L'air et la terre sont des biens précieux irremplaçables; les respecter signifie aussi nous respecter.

Il est donc important de connaître les règles locales pour l'écoulement correct des huiles et des liquides réfrigérants usés.

Si vous n'êtes pas, avec précision, à la connaissance de ces dispositions, récupérez les liquides dans des récipients adéquats et étanches jusqu'à ce que vous ayez demandé des éclaircissements à votre fournisseur, qui saura sans aucun doute comment vous aider.

Eviter tout contact avec la peau et empêcher la sortie du liquide durant les remplissages.

Réparer immédiatement les réservoirs ou les tuyaux endommagés; protégez-les adéquatement en cas d'interventions avec des soudeuses, des meules ou tout autre équipement qui pourrait les endommager.
